## DR. J. D. BUZZELL'S CELEBRATED FAMILY MEDICINES.

THESE Medicines are purely Vegetable, and extensively used in various parts of the United States, the British Provinces and the West Indies.

They are particularly intended for the removal of Chronic Diseases, such as habitual or periodical Headache, Catarrh, Consumption of the lungs, various affections of the stomach, liver, bowels, kidneys, urinary vesicles, glands, &c. Dropsy, Rheumatism, Gout, and some of the preparations, viz: the Bileous Bitters, Pills, Jaundice Mixture, and anti-acid or purgative.

When generally used, their effect is opening obstructions, removing all morbid and offensive matter from the stomach and bowels, which has reason to think is always their effect in all cases within the control of medicines. They operate as preventives in various epidemic diseases, such as Intermittent, Inflammatory, Bilious, and common Typhus fevers, Inflammations of the Lungs, Bowels, Pleura, Cholera Morbus, Diarrhea, &c.; as also preventives to some contagious diseases, such as Yellow Fever, Scarlet and Purplish fevers, and although there are some contagious diseases which they are not capable of preventing, such as small pox, measles, hooping cough, &c. yet, from many years' experience, has become confident, that all those who contract any of those diseases, while under the influence of these medicines, taken in such doses as to keep up and maintain a healthy action in the secretory and excretory vessels of the digestive organs, are but slightly affected, and are easily managed—whereas, on the contrary, doubtless in many cases, they would prove not only distressing, but uncontrollable and dangerous.

Vegetable Bileous Bitters.

Prepared exclusively at his Dispensary in Cape Elizabeth, near Portland, Me. These Bitters are particularly serviceable in all cases of obstruction of the stomach and bowels, and in chronic affections of the liver, and particularly serviceable where there is a loss of appetite.

Vegetable Bileous Pills.

These Pills are intended to remove all Bileous Obstructions, regulate the Secretions of the Stomach, Liver, Bowels and Kidneys, and to restore a healthy action in the digestive organs, by removing all unhealthy matter from the elementary canals.

Jaundice Mixture.

This Mixture will be found a speedy and safe cure for Jaundice, and of singular service in all cases where the bowels have lost their proper action, or have become torpid, attended with obstructive obstructions. It is also an efficacious remedy for bilious, and for which the directions accompanying the medicine are to be strictly observed.

Hemorrhoidal, or Pile Powder.

This medicine may be relied upon to give immediate relief; and their use persevered in, will effect a certain cure.

Compound Strengthening Plaster.

A local weakness, or a pain in the chest, stomach, side, or back, will, in most cases, be removed by the application of this plaster to the part affected.

Ointment, for the Cure of Cutaneous Eruptions.

A few sparing applications of this ointment, morning and evening, will be found a safe and efficacious remedy in all cutaneous eruptions. It is a remedy for eruptions of the face, with which children are so often afflicted, and even in cases of scald head, a lousness affection of the head, in which state it is covered with a continuing scab, it is a safe application, effecting a cure. It will generally cure that troublesome and truly perplexing humor, called by many the Barber's or Jackson Itch; observing in all cases, to take the ANTI-ERUPTIVE and COOLING POWDER, according to its accompanying directions.

Cough Mixture.

A remedy for all coughs proceeding from colds, asthma, chronic catarrhs, consumption, influenza, and inflammation of the lungs or pleura. It is also found very useful in ameliorating the violence of hooping cough.

For a more full and particular description of disease, and the medicines to be applied, I beg leave to refer you to my Circular, in pamphlet form, which may be found wherever the medicines are for sale, and to the remarks accompanying them.

## DOCT. E. PRATT'S IMPROVED ARTIFICIAL NIPPLE.

TO the Medical Faculty it is presented for demonstration as a desideratum, when properly applied, in the following cases, viz:—where the nipple is inverted; where there is excoriation in its irritable form; or even where it has completely sloughed. Perhaps the most extraordinary circumstance pertaining to its operation, is that it operates with perfect ease to the Mother, and perfect facility to the Child. It will be seen at a glance that this article is far superior to any other article of the kind which has yet been offered to the public.

DAILY WHIG AND COURIER.  
JOHN S. SAYWARD, Editor.  
MONDAY, AUGUST 7, 1843.  
FOR PRESIDENT,  
**HENRY CLAY,**  
OF KENTUCKY.  
FOR GOVERNOR,  
**EDWARD ROBINSON,**  
OF THOMASTON.  
SEE FIRST PAGE.

The following article from a Liverpool paper brought by the Acadia is one of much interest to every American. Here are facts worthy of being studied. Here is presented the practical working of our tariff at home and abroad.—Here is one proof of its beneficial character to our country furnished from a source that can be relied upon and with an acknowledgment of the fact. Will any party in the United States show themselves so thoroughly British in feeling as to repeal the present Tariff under the operation of which the industry is prospering and the commerce of the country becoming thrifty? If any party should be so lost to duty and patriotism as to do it, they should therefore be known as the British party.

**Decline of the Trade with America.**  
It appears from a return just laid before Parliament, on the motion of Mr. Thornly, that the exports of British goods to the United States of America, in the year 1842, were less in value by the sum of nearly Twelve Hundred Thousand Pounds than they were in any previous year since 1833, and that they were less by more than one-half than the average annual exports of the nine preceding years, the average yearly exports from 1833 to 1841 (both years inclusive) being of the value of 7,880,000*l.*, whilst those of 1842 were not of more value than 3,525,807*l.* This alarming decline in the largest branch of the foreign trade of the country, we regret to say, is not confined to a few or even to several articles, but extends to all, with the single exception of tin and tinned plates, as will be seen from the following statement of the fluctuations which have taken place during the period referred to:—

The value of the apparel and haberdashery exported from England to the United States in 1833 was 127,911*l.*; in 1836, 254,269*l.*; and in 1842, 84,893*l.* The value of the brass and copper manufactures in 1833 was 158,456*l.*; in 1836, 270,023*l.*; and in 1842, 89,952*l.* The value of the cotton manufactures and cotton yarn in 1833 was 1,733,047*l.*; in 1836, 2,729,430*l.*; and in 1842, 487,276*l.* The value of the earthenware in 1833 was 221,661*l.*; in 1836, 495,512*l.*; and in 1842, 163,873*l.* The value of the hardware and cutlery in 1833 was 711,351*l.*; in 1836, 1,318,412*l.*; and in 1842, 298,881*l.* The value of the iron and steel wrought and unwrought, in 1833 was 415,515*l.*; in 1836, 913,387*l.*; and in 1842, 394,854*l.* The value of the linen manufactures, including linen yarn, in 1833 was 832,612*l.*; in 1836, 1,025,389*l.*; and in 1842, 422,404*l.* The total value of the British exports to American in 1833 was 7,579,699*l.*; in 1836, 12,425,605*l.*; and in 1842, 3,525,807*l.*

The imports from the United States into this country show a very different result. The import of bark has increased between 1833 and 1842, from 18,459 cwts. to 27,648 cwts.; that of salted beef from 899 cwts. to 7024 cwts.; that of butter from 1 cwt. to 3,769 cwts.; that of cheese from 9 cwts. to 14,097 cwts.; that of wheat from nothing to 16,111 cwts.; that of wheaten flour from 35,659 quarters to 381,066 cwts.; that of hams from 72 cwts. to 1133 cwts.; that of lard from nothing to 26,555 cwts.; that of pork from 1359 cwts. to 13,408 cwts.; that of rice from 24, 114 quarters to 22,632 cwts.; that of tobacco from 20,743,317 lbs. to 36,618,412 lbs.; that of cotton wool from 237, 506,758 lbs. to 414,030,779 lbs.; that of turpentine from 322,486 cwts. to 408,330 cwts.; and that of sheeps' wool from 334,078 lbs. to 561, 028 lbs.

With regard to shipping, the American tonnage (entered) has increased from 229,669 tons to 319,524; and the British tonnage from 114,200 to 195,745 tons.

After making every allowance for the more than usual embarrassment of trade in the United States, in 1842, the first part of the above return cannot be regarded as being otherwise than most unfavorable to the prospects of English industry, whilst the second shows that the balance of trade is turning against this country in a manner which renders it doubtful whether we shall not shortly have to pay for American cotton in specie instead of goods. Nothing but a very great revival of the demand for English manufactures can save us from this evil; and, without a reform of the American tariff, there is very little hope of any revival at all equal to the necessities of the case, but we must consent to make liberal concessions if we wish or hope to receive them.

**Conflagration of Moscow.**  
This magnificent spectacle will be open for the first time in Bangor, this evening at the old Theatre building which has been well fitted up for the occasion. Mr. Harrington the gentlemanly and talented manager possesses great skill in the way of pleasing his auditors—he has a strong desire to succeed in gratifying the Bangor people, and we feel assured he will.—We would remind gentlemen who accompany their women to the exhibition that it will be more convenient for them to purchase their tickets at the Book Store than at the door of the exhibition.

The N. Y. American says, that many persons of intelligence in that city and throughout the State, are of opinion, that the present mode of employing prisoners in the State and city prisons, is defective and liable to just and serious objections. The mode recommended for employing prisoners, is in making roads.

**Robbery at the Tremont House—Boston.**  
A man of gentlemanly manners and elegant exterior, calling himself G. Thompson alias F. W. Gillett was arraigned in Boston on Friday last charged with breaking open the trunk of Mr. John A. Merritt, merchant of New York, on Thursday, at the Tremont House, and stealing therefrom two Treasury Notes of \$500 each, No's. 363, 369, drawing interest from 17th of Feb. last, and amounting to \$1082.16; also, two others of \$500 each, three bills of Exchange amounting to \$1000, one gold ring \$8, one diamond pin \$35, three gold studs \$10, two gold breast pins \$4.

Gillett was arrested and a portion of the stolen property found upon him and he bound over in the sum of \$5,000 to take his trial at the Municipal Court. He was committed.

**Capture of the Pirates of the Sarah Lavina.**  
The Journal of Commerce of Thursday says:—  
We yesterday published an account of the supposed piracy, taken from the New Bedford Bulletin of Monday. Today the mystery is unfortunately cleared up by the arrest of two actors in the scene who were taken into custody in the city this morning. Their names are George Matthews and David Babe, the latter Scotch or Irishman. They came passengers to this city on Tuesday, in the steamboat Massachusetts, accompanied by a third person named Wm. Webster, and excited some observation while on board, but not sufficient to warrant their arrest. But the Sheriff of New Bedford, Mr. Russell, having got track of them, arrived here this morning, and assisted by Capt. Comstock, of the Massachusetts, took Matthews and Babe into custody. Webster has not yet been arrested, and is supposed to have gone on to Philadelphia.

The persons are in close custody, pending their examination, and no person is allowed to have access to them. We can, therefore, only state what we have picked up out of doors, and what we are informed was stated by one of the prisoners, Matthews, when arrested.

The version given of the matter by Matthews is, that on the 13th or 14th of July, he and Webster and the cook were below, and that Babe came to him and told him that the captain had quarrelled, and while fighting fell overboard.

Babe then altered the course of the vessel and in about ten days they made land, and having plundered the sloop and scuttled her, they were about to get into the boat to go ashore, when Babe attacked the steward, who was a colored man, named John Johnson, with an axe and immediately killed him. He then approached Matthews, and with an uplifted axe, threatened to kill him, if he did not again swear to secrecy, which he did, and was permitted to accompany the other two on shore. As soon as they landed, they all three made the best of their way to New York, where two of them, as we stated, have been arrested.

Matthews is a young fellow and seems quite willing to disclose the whole, and is very much affected. He says that Babe, who is a stout Englishman, committed all the murders. Babe is a very bad looking fellow, stout and surly.—Matthews had on the Mate's shirt when arrested.

Extract of a letter, dated  
New Bedford, Aug. 2.

The sehr. Sarah Lavina and cargo has already been libelled, and the case comes on for trial on the 11th of this month. We have seen the Captain of the sloop Fairhaven and he is willing to settle by paying him what is right, and will consult with the other libellants and make up their minds what they will do. The cargo is nearly discharged and in store; the barrels on the ground tier were all wet and some in the second.

**Further Particulars of the Attempt to Assassinate the P. M. General.**

The Philadelphia Gazette has the following, which is more full than our previous account.

The affair occurred on board the steamboat Georgia, on her trip from Norfolk to Baltimore about 1 o'clock yesterday, 1st inst. The bell had just rung for dinner. The Hon. C. A. Wickliffe was in the act of proceeding to the table, with his daughter on his arm when John McLean Gardner, a son of Mr. Gardner, who was First Auditor of the P. O. Department during the administration of Jackson and Van Buren, made a sudden attack upon him, plunging a dirk knife into the centre of his breast, inflicting a wound an inch in length. Fortunately the knife came in contact with the breast bone, or Mr. Wickliffe's life would have been sacrificed.

The wound bled profusely. The assassin immediately after the act drew a card from his pocket, and handed it to a gentleman near him with a request that it might be read aloud to the company. He afterwards, as our informant states, wrote a letter taking the whole blame of the act upon himself, asserting that he was glad that the wound was no worse, but expressing no regret for having inflicted it, and refusing to acknowledge that he had done wrong. The general impression seemed to be that he was insane. He was taken into custody by Captain Coffee of the Georgia, to be delivered to the authorities at Baltimore.

The blow was so severe as to cause Mr. Wickliffe to fall into a chair, whence he was conveyed to a couch, where he lay when the Constitution met the Georgia, when our informant left the latter boat. The wound was not supposed to be mortal, though it caused acute suffering.—An inch variation in the direction of the blow would have made it fatal. The fact of Mr. Wickliffe's having hold of his daughter's arm, it is supposed, saved his life. We have only one remark to make on this matter. The supposition by the spectators that the assassin was insane will have no effect we hope in swaying the course of justice.

We have not the slightest doubt that every fellow who makes up his mind to commit murder now-a-days, does so, with the determination of acting the insane man and with the expectation of going "unwhipped of justice" on that plea. We are not prepared to say that Gardner was not insane. Every man who commits a great crime must be more or less insane, for in his right mind he never would brave the awful and almost certain consequences of his iniquity; but this kind of insanity is too dangerous to the peace and safety of society to be allowed to walk abroad. All such insane persons should be closely confined where they can neither harm themselves nor others.

The highest compliment we ever received was from an accomplished and noble woman, the editor of the Boston Transcript, that we were altogether too modest. It would be useless to deny that the remark has afforded us great encouragement.

**Daring Robbery.**  
On Monday last, Mr. G. R. Leffler, iron worker, Pratt street, Baltimore, having received a note requesting him to meet two persons at 8 o'clock, at his foundry to receive from them an order for ten tons of castings, proceeded there at the time appointed, and had been but a short time in the office when two men came in. They at once commenced negotiations for the work, and continued in conversation until he happened to turn his back, when one of them struck him a violent blow on the back of the head, which felled him to the ground. On recovering from his stupor, he found that he had been robbed of \$1,375 in cash, which he had on his person, having just returned from Washington, where he had received the money and which he had not yet had an opportunity to deposit.

A negro man at Columbia, Pa attempted a brutal outrage on a white girl after locking her in the cabin of a Canal Boat. He was seized and taken before a magistrate and ordered to jail. While confined, waiting a conveyance a number of persons, above, and probably wiser and better than the law rescued him, beat, tarred and feathered and offered him other indignities and then tied him to a door latch!

The Portland Bulletin states that Alonzo Molen, a lad 14 years of age, employed in the woolen mill in Brunswick village, was accidentally caught a few days since in a picking machine, which was revolving with great velocity, whereby his right hand was badly lacerated.—Three of the fingers were cut off and the fourth was broken and otherwise injured, and the back of the hand badly torn.

At the Cumberland Loco Convention at Gray on Thursday, the Hon. Robert P. Dunlap was nominated for Congress. The vote stood, Dunlap 39, Littlefield 17, seat. 10. In York district, Benj. J. Herrick, Esq., was nominated for Congress by the same party, on the 21st ballot—he receiving 26 votes out of 50.

**Fun Alive.**

The Eastern Enquirer has commenced upon the work of showing up the political inconsistency of the Bangor Democrat. It is getting to be a pretty serious question now-a-days who is a Democrat, and as a profession of faith has ceased to be satisfactory it is found necessary to have Surveyor and Inspector Generals to decide the political quality and rank of each man claiming to be a Democrat. The Enquirer is just now in favor of a liberal survey—the largest liberty.—The Democrat is for strict construction on men—they must be subservient to leaders to be Democrats. Whichever branch triumphs will compel the other to fall tamely into its wake and follow its lead.

Major Kingsbury, of the Portland American, says we made a fortunate escape from Portland. Escape, eh? We will be upon ye again man in about a week.

Hail Columbia, who's afraid?

Bangor Courier.

John, is our hickory in the corner?—Put two pistols on the table, and buckle a sword on each side of us. Now, come along!

[Portland American.

Doctor Ladd! We have a scrape to settle and must borrow one of your big syringes for a few days.

The Eastern Enquirer compliments its neighbor of the Democrat by telling Capt Tyler that he cannot purchase the Democrat with the Post Office advertising while the county patronage is worth so much more. The Democrat now enjoys both and grows fat.

**Fire.**

On Wednesday night last, the Tannery at Burnham Village, was destroyed by fire. Loss of property estimated at \$25,000.—Insurance \$7000. This is the second time within a few years that the Tannery at that Village has been consumed by fire.—Gardiner Ledger.

**Yucatan.**

Passengers who arrived at New Orleans from Campechy, are of opinion that hostilities will be renewed between the people of Yucatan and the Mexicans. The Government agents in Campechy were offering very liberal wages to citizens of the United States, provided they would enter the service of Yucatan. At the latest dates, the greatest tranquility prevailed in Campechy and the other parts of the peninsula.

In the House of Commons on Friday night, the Home secretary denouncing the Repeal agitation as treasonable.

A Letter from Tabriz brings the disastrous account of an earthquake having nearly destroyed the whole of the town of Khoi, between the Lake of Usmia and Persia, by which upwards of a thousand people perished. The inhabitants of Tabriz had also been alarmed by frequent and violent shocks.

The Commerce states, that from amongst a number of pigeons brought from Antwerp, and released at Paris on Sunday last, seven obtained prizes. The first accomplished the distance from Paris to Antwerp in two hours and twenty minutes, the seventh in five hours and fifty minutes.

The merchants of Trieste intend to send, at the end of August, commissioners, by the way of Egypt and Suez, to Southern Asia, and especially to India, in order to ascertain the possibility of opening an active trade between those countries and the Austrian Empire.

James Gorden Bennett, Esq, proprietor of the New York Morning Herald, reached Liverpool yesterday in the packet-spip Garrick, and immediately favored us with a call. We understand that he intends taking an extensive tour throughout Europe, in connection with his own journal.

A letter from General Sir William Nott has been published to-day, in answer to questions sent out to him by the British government relative to the excesses said to have been committed in Ghuznee and other places. General Nott

denies most indignantly, and in the most positive manner, that any excess have been committed by the troops under his command.

The celebrated vocalist, Mrs. Wood, after her very short connexion with the Roman Catholics, has again returned to her husband and the Protestant faith. On Sunday week Mr. and Mrs. Wood took part in the musical performances at Chapelthorpe chapel, and Mrs. Wood has, we understand, undertaken to preside regularly at the new organ, which has just been built for that place of worship by Mr Booth of Wakefield.

Mr. Cobden expressly stated, at the Penenden Heath meeting, that the repeal of the corn law is but the first of a series of triumphs to which the Anti-Corn Law League are looking forward. He distinctly declared, that it is not only the total abolition of the corn law which he desires, but the total abolition of every other monopoly.

The navy of Great Britain is now composed of about one-fifth of war steam ships.

The operation on the remaining portions of the wreck of the Royal George are being carried on with great spirit, and it is confidently believed that success will soon crown the persevering efforts of the parties engaged; to one of the planks set up by Corporal Jones a guinea, bearing date 1775, was attached; the same diver also sent up an officer's sextant.

Patrick O'Leary, a private in the 69th Regiment of Foot, was taken into custody at New Brunswick, on his own confession, for the murder of the Rev Mr. Feigenson of Timoleague, county of Cork, in the year 1832, and on the 3rd instant arrived at Liverpool, where he was huddled over to the authorities.

Four English counties, with 690,000 inhabitants, send fifty four members; all Scotland, with four times the number of inhabitants, send only fifty three; all Ireland, with thirteen times the number, only 105.

Five men were killed and several seriously injured by an explosion of fire-damp, in one of the Prior's Lee Hall Pits, near Shrewsbury, on Monday's night.

Captain Monk, R. N., has, in his garden, at Neston, a rose tree of a peculiar species, which at this time bears 3,700 flowers, beside innumerable buds to come in succession.

**Money.**

The Providence Journal says:—  
"Money is more abundant than we ever knew it to be before in this city. Many of the banks, and we presume most of them, have reduced the rate of interest to four per cent; and even at that, they find it difficult to get a sufficiency of good paper to absorb their capitals. The paper offered is generally good, and founded on solid business transactions. Individual capitalists have taken loans at less than four per cent.; and those who retain a vivid recollection of the times when they got four per cent a month, think the millennium is a good way off yet."

**Protection Against Free Trade.**

The whole amount of Foreign Merchandise imported into the United States, in 1841, was \$127,945,000. The duties charged on this amount was \$14,487,000—being eleven and one half per cent. The whole amount of American Produce exported during the same period to other countries, was \$81,000,000. The amount of duties levied on this was 112,500,000. The average value of Tobacco, exported in 1839—40, was \$3,225,045. The European duty charges were \$12,253,540, being over three hundred per cent! With these facts before the people, the Locofoco leaders advocate a reduction of our Tariff, as if to conciliate English and French commerce, and call it reciprocity!—Boston Atlas.

**LOOKING GLASS & PICTURE FRAME**  
**MANUFACTORY.**  
FAIRBANKS & HOLLAND,  
PEARSON'S MILLS, BANGOR.

THE public are informed that we have estab-  
lished a manufactory for making LOOKING  
GLASS, PORTRAIT AND PICTURE  
FRAMES of all sizes and varieties. We have  
set up suitable machinery in all the branches of the  
business by which much labor is saved and the price  
of these rich and beautiful articles is greatly reduced,  
so that a fine article may now take the place of  
coarse and ill looking ones, and at as low a price.  
Large and elegant O. G. and bevel frames, and  
small bevel frames with rich mahogany veneer are  
manufactured in such quantities that we are pre-  
pared to answer, at short notice, all orders at  
WHOLESALE.

by the hundred or thousand, at prices that cannot  
be satisfactory to dealers.

Our new frames fitted to Portraits, Looking Glass-  
es or Pictures, or new glasses furnished and fitted  
to old frames.

Dealers supplied with frames either with or  
without glasses.

N. B. Orders respectfully solicited for single  
frames or by the dozen; and as this is a new branch  
of Home Manufacture to any extent, we trust the  
public will be ready to encourage and support the  
enterprise.

For the convenience of our city friends, orders  
for frames of any kind may be left at the Hardware  
store of DAVID MOSMAN on East Market Place.

MANUFACTURERS OF TAPPAU-  
LIN HATS, OIL CLOTHING, CAPS &c.

East End of Kenduskeag Bridge, Bangor.

By long experience and unremitting attention  
we have brought the manufacture of Tappa-  
ulin Hats to the highest state of perfection. We are  
enabled by using the best materials in our new  
method to give a rich gloss, evenness, strength and  
softness of texture, not liable to crack or peel and  
perfectly impervious to moisture either from with-  
out or within. These qualities have merited and  
received the confidence and approbation of our cus-  
tomers; and in order that the genuine article may  
be known in the market and to prevent all imposi-  
tions, we respectfully inform the public that a dis-  
tinguishing label will be placed upon the inside tip  
of each Hat of our manufacture.

GLAZED AND CLOTH CAPS of every variety  
manufactured of the best materials and of fash-  
ionable forms.

OIL CLOTHING of all the usual varieties made  
in a substantial manner, and no labor spared to  
make the garments efficient and useful.

READY MADE CLOTHING suited to the differ-  
ent seasons.
